**BACKGROUND:**

The Texas Department of State Health Services (TDSHS) allocates federal pass-through funds for the prevention of HIV and AIDS cases throughout Travis County. The HIV Prevention Projects grant was originally a 4-year grant that began in FY 2002-2003. TDSHS requested an 8-month extension in the grant period from January 1-August 31, 2007, to avoid interruption in services while the agency completes an RFP and awards new grant contracts. As the local health agency for the area, the City of Austin Health and Human Services Department (HHSD) is receiving \$386,642 for this program during this extended period. Because the TDSHS contract with the City of Austin has been extended, it is recommended that each subcontractor's contract be extended for the same duration of eight months. Each subcontractor will receive 66.66 percent (8 of 12 months) of the amount it received during the last 12-month contract period and is expected to achieve 66.66 percent (8 of 12 months) of the performance objectives for the previous 12-month contract period. TDSHS has issued a competitive bid for funds that will be available effective September 1, 2007, when the extension expires.
